REMARKS:

25X1D

This area, appearing on photography of [REDACTED] and listed in CIA/PIC/JMCI-7/60 as a possible military installation 1/, has now been identified as a military garrison and training area. The area consists of a small military depot and barracks site, a storage site, a probable storage and maintenance site, a tank driver training site, and a tank moving target range. It covers 3 square miles, not including the tank range, whose limits cannot be determined.

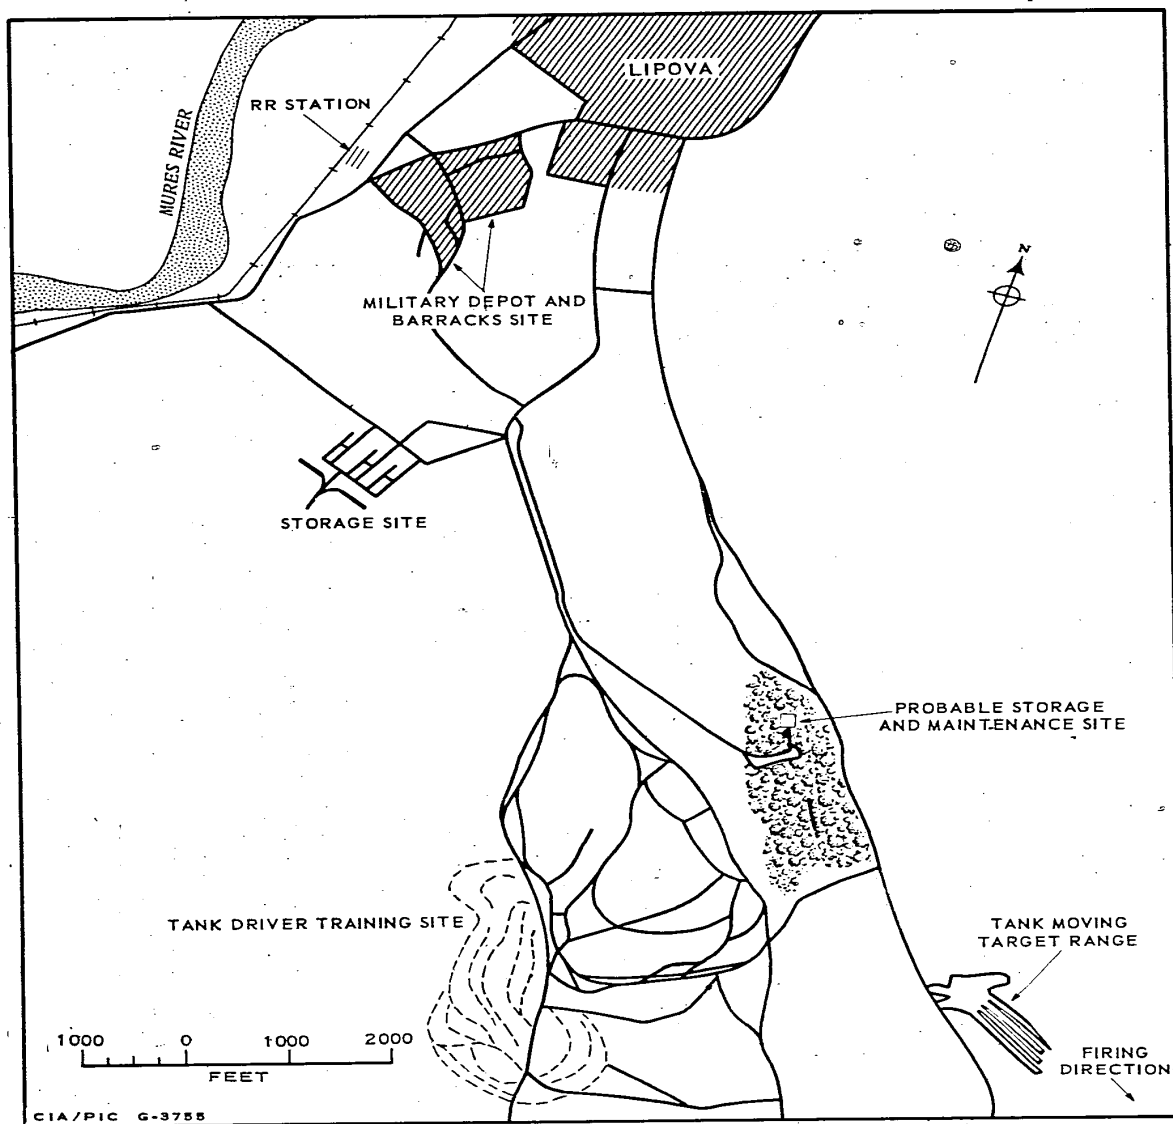

The area is situated in rolling hills near the Mures River, in a primarily agricultural region interspersed with woods. It is served by rail and by good road facilities. The storage site and probable storage and maintenance site are road served only. The degree of security cannot be determined
